## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Simulating processing of an eyeglass lens comprising means configured to enable specifying a chamfering location and a contour of an end portion of a lens edge as claimed is not taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Saigo (US 6,142,628) discloses a related eyeglass simulation system that incorporates lens prescription data.
